

# Coaching Membership

## LIMITED SLOTS

Navigate the challenges of leadership with on-demand coaching. Your membership gives you the access you need, when you need it, and the confidence of a trusted coach.

Executive coaching is not a one-and-done relationship. It is more than a momentary tool to help get you over a large hurdle. Coaching is a Secret Weapon that most executives never reveal unless asked.

**Based on feedback from former clients, I've created a new way to offer continue coaching support: a coaching membership!**

Why? Continued coaching leads to innovate thinking that helps you stand out, without having to earn another degree or credentials.

- Learn what you already possess or need to achieve to reach your goals
- Handle new challenges as they arise, without stress
- Continue to expand what sets you apart as a leader without waiting for a performance review
- Connect your natural strengths to the needs of your organization
- Trust your decision-making instincts with confidence
- Lead a team with practiced ease and reduced drama

**Virtual coaching memberships is based on your desired level of support.**

\$800/month = 2 Coaching Sessions and Support

\$1000/month = 3 + Coaching Sessions and Support

Each coaching session (which can be as short as 45 or as long as 90 minutes) is based on your current needs and includes texts, emails, and check-ins to help you stay on track.

Discuss your leadership challenges and include your team if needed. All Coaching is conducted online or over the phone, and is not to be used for presentations, webinars, or workshops. If I am traveling, or live near you, I'm happy to meet in person.

Membership is billed monthly and can be canceled with 7 days' notice.

Refunds are not available for partial months.
